PERCUSSION-ORCHESTRA **AS WORKSHOP WORKING TOGETHER**

- A group is guided, in a short time, to play a musical composition, by means of easy-to-play rhythm-instruments. This is done on location, with instruments of Beenhakkers Percussion.
- The emphasis lies on mutual cooperation and the experience here-of.
- The percussion-workshop can be given as a cooperative learning-experience, as a relaxing activity, or these 2 combined.
- It will very soon be clear that the conditions required for making music, are the same conditions that make a company/organization/group function well.
- Fun to do, to work together in a musical environment, and with surprising results.
- Afterwards you will view the the term "cooperation" and your colleagues from a new perspective.
